Head mistress' message

On behalf of St. Andrews family, I welcome you all from the core of my heart, to an institution that has been nurtured from the past **35 years** with the blessings, hard work, dedication & love of Late Shri. J.K. Arora. . I am grateful to the almighty for all his blessings and grace in fulfilling our vision. Our school provides excellent infrastructure for academics, sports and extra curricular activities. School's motto "To learn and serve" is of great significance, suggesting that the true happiness can come only through serving others. Our school has been serving the society in the field of education **since 1989**. Teaching faculty and versatile management of the school have always ventured to bring out latent talent of the students.

MADHU ARORA
(HOS)

Founder: Late Sh. J. K. Arora

He was a visionary who set up this institution to spread the gift of knowledge and innovation. Today, we take pride in taking his legacy forward by making this institution achieve great heights through quality education and overall growth of every Scotian

Our mission

It is to provide good quality education and a protective atmosphere with special facilities. Our mission includes nurturing in students the values of hard work and discipline in their quest for excellence.

Our vision

- To empower children through education so that they excel in every field and achieve the heights of success in their lives.
- To foster in them a spirit of love and hope, helping them develop rational thinking and compassion at heart.
- To motivate all the students to elevate their potentials, hobbies and talents to the fullest.

CURRICULUM

WE PROVIDE QUALITY EDUCATION

We at St. Andrews nurture the Scotians with the purpose of holistic development and quality education for a brighter and smarter future. We follow the education patterns, imparted through the **smart class**, so as to make our students reach zenith with their knowledge and skills. Valuable insights and recommendation of New Education Policy (NEP) are followed for analytical thinking, experimental learning and creativity.

SCIENCE LAB

We believe in practical learning as it enhances the retaining and learning process. The lab is well equipped with the latest requirements as per curriculum.

ADVANCED COMPUTER LAB

Exposure to technology through two spacious, fully air-conditioned computer labs enabled with internet connection on every computer.

EQUIPPED LIBRARY

A spacious library well-stocked with books. It provides rich material to supplement and enrich the knowledge imparted in the classroom.

FACILITIES & CO-CURRICULAR ACTIVITIES

CCTV MONITORING

To provide a safe and secure environment, CCTV cameras have been installed in the classrooms and school premises. CCTV monitoring facility helps in keeping track of activities taking place in school.

MEDICAL ROOM

We believe that Health is the real wealth, therefore our school has a well equipped medical room for the students. A qualified nurse remains there throughout the school hours to provide first -aid facilities to the students in case they need.

SPORTS ACTIVITIES - PLAYGROUND

Students enthusiastically showcase their diverse talents and their desires to excel by participating in Volley ball, Cricket, Badminton, Kho-kho, Table Tennis and Aerobics. Keeping in mind the physical agility and recreation of your child we have a spacious area for our scotians to sweat it out and play their favourite sport.

RESOURCE ROOM

Resource Room facility is also provided by the school to help the children with special needs (CWSN).

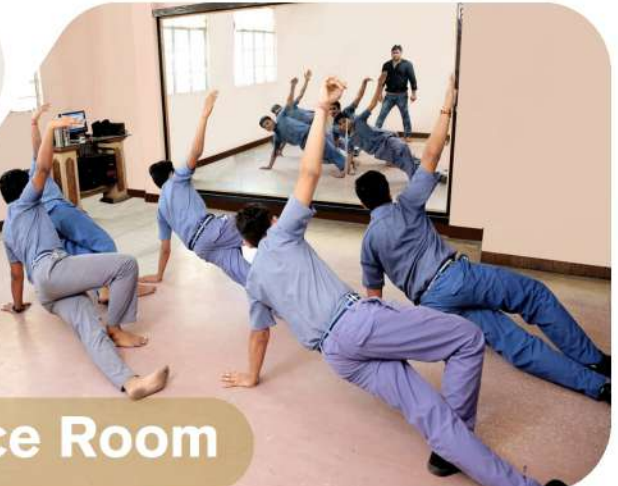

ASL

Assessment of Speaking and Listening - The school also provides ASL lab containing learning and teaching resources that are available for all students in order to improve their communication skills by activities like role-play, group discussions, etc.

FACILITIES & CO-CURRICULAR ACTIVITIES

Music Room

Dance Room

Robotics

The section of technology continues to expand and gaining momentum. Our school is also prepared for advanced future technologies so we have introduced teaching Robotics in our school. Robotics is an indispensable multidisciplinary field to impart practical learning to students.

3D Printing

3-D Printing or additive manufacturing is the process of making a 3- dimensional object from a digital file. Students always learn in an interactive manner. We have introduced 3-D printing in our curriculum which not only gives them a better understanding of their existing subjects but equips them with a future skill i.e CAD (Computer Aided Design). This will help your child in improving problem-solving and critical-thinking capabilities.

Self Defence

Keeping in mind the concern of every parent in term of the security and safety of their child in today's evolving scenario, we train students in an ancient art of TAEKWONDO for self defence.

TRANSPORTATION

Your wards' security is of utmost concern to us, right from the time they leave the house until the time they reach back safely. Keeping this in mind we have our own transportation facility. We provide eco- friendly vehicles which are timely serviced and are driven by responsible and trust worthy drivers for 100% safety of every Scotian.

- ✓ Timely serviced vehicles
- ✓ Background checked drivers

COMMUNITY OUTREACH

"ANDREWS FAMILY BELIEVES IN GIVING BACK TO THE SOCIETY" Every Scotian is a responsible citizen of our nation. We inculcate the value of social responsibility in every Scotian, and to imbibe the value of 'being the change' to bring a change in the country.

REGULAR WORKSHOPS

We believe that academics are the most important aspect of an individual's growth. Whereas, rejuvenation is equally important for the body and mind to remain focused. We at St. Andrews conduct various workshops for all our Scotians based on different developmental aspects like robotics, entertainment, hygiene, innovation, creativity, and many more. These workshops are conducted by industry professionals, like Cartoon Network, Savlon, Zuci, etc.; for enhancing the learning imparted through the workshop mode.

TRIPS AND EXCURSIONS

Trips and excursions offer children the opportunity to bond, while sharing new and exciting experiences. These trips are not just recreational; they offer children insights into the lives of other people. Inspiring and being inspired, children often return with a fresh perspective or a new skill.

THE ANNUAL SCHOOL MAGAZINE: BLOSSOMS

Blossoms aspires students to become future writers, poets and authors etc. Blossoms gives a platform to the students who are passionate towards writing to explore their talents & creativity and for this, the school publishes its school Magazine every year which showcases the activities, excursions, achievements, celebrations of the year gone by.

Annual Day Celebrations

The school celebrates the annual day every year magnificently.

Parent Portal

Smart Phone App for:

-  Daily Attendance
-  Study Material
-  Circulars
-  Messages
-  Holiday/ Event Calendar
-  Time Table

Teacher Development program

We believe in continuously nurturing & training our teachers for their quality development and keep them up to date through development programs conducted by professionals in the area of child psychology, motivation and modes of teaching.

NURSERY WING

INFRASTRUCTURE

All classrooms are airy, well lit, fully equipped with fans, lights and **air-conditioners**. The size and shape of school furniture in nursery wing have been specially designed to suit the tiny-tots. The **water basins** are also installed at the **height of small children** so they can reach there easily.

SMART CLASS

Digital classrooms are equipped with technology that allows for interactive learning experiences such as smart white boards and projectors etc.

PLAYROOM

The play area is extremely effective as it allows children to learn through active explanation and physical manipulation.

WATER-POOL

For our little wonders we maintain a swimming pool where your child can take a splash as we believe that fun shouldn't be left behind.
